OVERVIEW

I'm a Creative Technologist and Immersive Developer with five years of agency experience building, AR, webXR, VR, event installations and interactive experiences for brands and public audiences. I bring hands-on gameplay development, rapid prototyping, real-time 3D development, and cross-functional project leadership to engaging interactive work for a diverse client roster including Sesame Street, Bayer, Enterprise, and the Saint Louis Zoo.

EXPERIENCE

Paradowski Creative, Saint Louis, MO *May 2024 – Present*

Social AR Lead

- Lead AR development and project management while serving as internal subject matter expert on AR platforms, tools, and industry trends, consulting across teams and projects
- Front-end web development, creative ideation, emerging technology research & development
- Exploring Hololumiescent Display and Gaussian splat technology
- Working across a diverse roster including United Soybean Board, Sesame Street, Bayer, and Espolon (Campari)

Paradowski Creative, Saint Louis, MO *March 2023 – May 2024*

Immersive Technology Developer

- Developed web and social platform AR filters for clients, managing project timelines, team communications, and technical execution
- Delivered AR activations for the Saint Louis Zoo, creating app-free experiences
- Proactively developed AR concepts and creative strategy paired with rapid prototyping for client work
- One of a small team of core Gameplay Programmers on The Escape Artist, a VR escape room nominated as People's Voice Winner for Best Narrative Experience, in the 2024 Webby Awards

Paradowski Creative, Saint Louis, MO *Sept 2021 – March 2023*

Jr Immersive Technology Developer

- Built webXR and social AR experiences across 8th Wall, Meta Spark, Lens Studio, and Effect House.
- Directly expanded the team's AR capabilities and contributed to opening new client relationships through, self-directed skill development
- Contributed to development of a WebXR mini-golf experience featured on Meta's VR browser home page and Webby Virtual Games Honoree, 2023

Paradowski Creative, Saint Louis, MO *May 2021– Sept 2021*

Immersive Technology Intern

- Designed and developed AR filters and WebXR experiences using Spark AR Studio, Three.js, A-Frame, 8th Wall, and Mozilla Hubs

EDUCATION

Interactive Design (BFA)
Maryville University | St. Louis, MO *2017 – 2021*
Summa Cum Laude
Interactive Design Award '21
